July 14, 2008

The Institute of Electrical and Electronic Engineers will be celebrating 100 years in Northeast Indiana on August 14, 2008 at the Grand Wayne Center. We are expecting over 1000 individuals at this event. We are using our Centennial as an occasion to collaborate with other engineering societies, area organizations, museums and local companies to celebrate 100 years of Engineering, Science and Technology.

Our goals for this event include:

- Strengthen Northeast Indiana's economy through creating an event that gains national exposure in multiple industry publications - attracting the interest and curiosity of talent, businesses and conventions.
- Nationally and locally recognize sponsoring companies.
- Celebrate engineering's contribution to Northeast Indiana's success and future.
- Encourage engineers to advance technically and develop professionally.
- Enable the community to thank and encourage engineers - increasing their contributions and excellence.
- Create awareness and interest in IEEE and other professional societies.
- Introduce our youth to science, technology and engineering.
- Provide the community with an exciting and memorable day.

Many of Northeast Indiana companies utilize and provide technical products and services that are founded on engineering principles. Engineering has contributed significantly to improving the lives of individuals throughout Northeast Indiana and across the globe. Major Indiana industries: electrical products, communications, automobiles, plastics, and modern medicine are all developed through the use of engineering.

The Institute of Electrical and Electronic Engineers is a non-profit professional organization established in 1884, four years after Tom Edison invented the light bulb. IEEE (pronounced "Eye-triple-E") is focused on the Technical Advancement, Professional Development and Financial Assistance of its 370,000 world-wide members among its 306 sections. The Fort Wayne section was established on August 14, 1908 as the twenty-fourth (24) section. We currently have 360 members.

Several additional organizations are supporting this event:

ITT
Logikos
Raytheon
Navistar,

WorkOne,
The Alliance,
The Innovation Center,
Northeast Indiana Regional Partnership

Two additional organizations that showed interest but have not yet committed financial support is Indiana Economic Development Corporation and IPFW.

Also,

American Society of Safety Engineers
American Society of Mechanical Engineers
American Society of Quality
Fort Wayne Astronomical Society
Fort Wayne Engineers Club

Project Management Institute
Society of Automotive Engineers
Society of Women Engineers
Society of Manufacturing Engineers
TekVentures

July 14, 2008

On Thursday, August 14th

9-12 AM Technical Advancement and Professional Development Courses and Presentations

1- 4 PM Technical Advancement and Professional Development Courses and Presentations

4- 6 PM The EXPO. Come learn about the companies, museums and professional organizations serving Northeast Indiana - 100 Years of Engineering, Science and Technology

6-11 PM The GALA. Join us on a journey to Saturn and its moon Titan in a special NASA multimedia presentation by Carolyn Porco. The evening will also include magnificent food, music and prizes

The next morning, Friday, will be a Golf Outing. We are encouraging distinguished guests and sponsors to participate. This is a less formal time for business leaders, community leaders, government servants and visiting distinguished guests to share ideas, build relationships and collaborate.

Our website is www.ieeefortwayne.org where we have additional information.

Participating helps you directly and indirectly. One of the benefits of your sponsorship is the direct contact of your professional journals and trade publications with an announcement of your participation and invitation to trade publication to cover the event. Your organization can also use its participating with customers and suppliers for your own promotional programs.

You also receive tickets to the event that can be shared with your best employees as a reward; nice event and an opportunity to network with the distinguished guests and area leaders.

Indirectly, Northeast Indiana receives positive press, area business will likely receive additional business and talent may consider local businesses for employment – building our community.

In addition to yourself, you else do you recommend I contact to make this event successful for Northeast Indiana.

Select your Sponsorship level, the number of booths you desire at the expo and mail the forms and check to
